QAD South & Eastern User Group

www.seug.org

The **South & Eastern User Group (SEUG)** was created to provide networking, support, and education for QAD Users in the Southeast & East Coast Region of the U.S. In addition to providing educational value to our members, our **Bi-Annual Meetings** serve as a means of communication with QAD, Inc. on common issues of interest. We operate in association with the America's User Group as a "Regular" User Group.
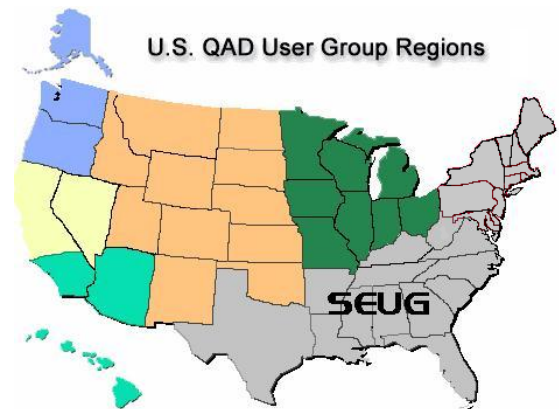

MEMBERSHIP

Any company which licenses QAD software can join the Southeastern User Group as a **Member Company**. Those businesses who are QAD Business Partners, those who provide consulting, training, or third-party software related to QAD applications may join the User Group as **Associate Members**. Most of our members are located in the South and Northeast region of the United States.

Member Benefits

In addition to valuable **education and networking** opportunities through our bi-annual conferences, SEUG also offers members the following benefits:

- **Member Discounts** to all SEUG bi-annual conference
- **Quarterly Newsletter** for updates on user group activities events, product news, and more
- **Access** to conference papers and handouts
- **Member Directory** for up-to-date industry contacts
- **FREE Job Postings** on the SEUG Job Board
- Networking & access to **end user referral services**

U.S. QAD User Group Regions

Dues

Dues are **$150 per year** for each QAD user site and **$250** annually for Associate (vendor) members. Membership in the User Group enables employees of member companies to receive member benefits and participate in SEUG activities.

MEETINGS

One of SEUG's primary activities is to sponsor **two meetings per year** at various locations throughout the Southeast and Mid-Atlantic region. Meetings are held in **March and September** of each year and provide both educational and networking opportunities for members and serve as a means of communication between QAD and its User Community on issues of common interest. Specifically, SEUG Conferences offer the following objectives:

- Provide a **forum for Members to exchange information** about QAD software, its implementation and utilization.

- **Networking with other members** as a resource for learning, problem resolution, and continuous improvements in company performance.

- Provide a meeting place where Members can learn about **QAD Business Partners and other Vendors** of third-party software and consulting services in a free-format environment.

- Provide a **broadcast platform** where QAD can present information about current and future releases of the QAD software.

- Provide an **advisory resource** in which the User community speaks to QAD as a unified voice regarding feedback on current functionality of the software and its future direction.

In order to provide meetings of broad appeal, SEUG Conferences cover Tracks in the following areas:
Manufacturing - Technical - Financial - Business Process
