QAD User Group

About

The MFG/PRO Midwest User Group (MMUG) is the largest independent User Group for QAD Enterprise Applications and related software. They represent manufacturing companies in the Midwestern U.S. as well as QAD partners and other product/service providers who support QAD systems. Their mission is to provide a forum for members to share and exchange information through educational conferences; to establish mutual support and peer contacts; and to promote and advance the use of members' ERP systems.

Membership Benefits

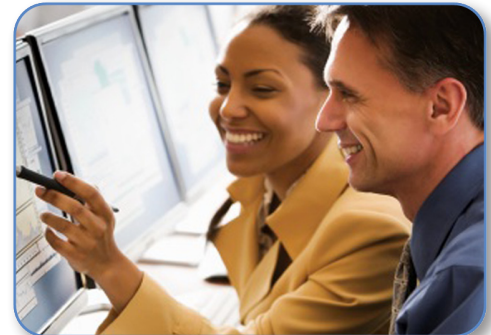

- Discounts to all MMUG sponsored events
- Online User Database for access to member information and contacts
- Members Only Web site for access to conference presentations, newsletter archives and more
- Quarterly Newsletter for updates on user group activities, product news and more
- The MMUG ERP Resource Guide index of product and service providers to QAD users
- Voting Rights in all user group elections
- Free Job Postings on the MMUG job board
- Access to other end user referral services
