

Our Passion. Your Advantage.

About

Founded in 1995, the QAD Netherlands User Group aims to establish a stimulating environment for its members to learn and create. The QAD Netherlands User Group is an organization of professionals that aims to improve business processes using QAD Enterprise Applications. Through three to four meetings each year, the directors of the User Group work with members, business partners, consultants and QAD to achieve this goal.

Membership Benefits

- Education of optimal ways to use QAD Enterprise Applications
- An environment where users are able to network and exchange experiences
- Direct input into QAD Enterprise Applications creation and refinement
- Access to QAD regarding current functionality and future product improvements
