

EASY ON BOARDING

EASY ON BOARDING

OVERVIEW

QAD Easy On Boarding (EOB) is an implementation methodology based on industry best practices for companies seeking reductions in implementation time and cost of ownership. The QAD Easy On Boarding methodology is a scalable option that offers predefined processes, predictable costs and reduced implementation times.

SOLUTION OVERVIEW

For small projects, QAD EOB offers:

- Predefined processes based on industry best practices
- A focused project plan designed to meet implementation requirements
- Tools to complete the project
- A project timeline based on the assumption that the customer uses the provided processes with a minimal number of changes to achieve the time and cost targets of the project

For large projects, QAD EOB offers:

- Expanded set of predefined industry-specific processes and functionality
- More refined processes geared toward desired outcomes
- Built-in tools to facilitate data definition, data migration, solution validation and user training

For multi-site customers, QAD EOB offers:

- A core model definition
- A project plan identifying distribution and deployment phases
- Process models and data definitions
- Custom test scripts, work aids and configuration manuals
- Proven core model solution
- Creation of user training materials
- Deployment of core model solution to additional sites

Based on our 35-plus years of manufacturing experience, we created industry-specific solutions with predefined processes frequently used in the following target industries:

- Automotive
- Life Sciences – Medical
- Life Sciences – Pharma
- Industrial
- Electronics
- Consumer Products
- Food & Beverage

KEY BENEFITS

- Industry-specific solutions
- Built-in best practices
- Faster realization of business benefits
- Focus on customer value
- Reduction or elimination in customizations
- A global, standardized way of working
- Reduced implementation times
- Predictable costs

Our goal is to provide a comprehensive implementation solution that allows you to focus on areas that make a difference in adding value to your business.

CONTACT INFORMATION

Let QAD be a natural extension to your IT team to achieve consistent delivery of application support and services on a global level. You will experience predictable costs, improved efficiencies and reduced risk to your operations. To learn more about how QAD Easy On Boarding can help you, contact your sales representative or send a request to QAD Global Services (services@qad.com).
